**Professional Experience**

**React & Angular Front-End & UI Developer** Hybrid, Uruguay  
May 2022 – Oct 2024  
**Tata Consultancy Services** (IT services, consulting, and business solutions)

- Developed and maintained complex web applications using React.js and Angular v15, improving performance and user experience for large-scale clients.
- Built modular, reusable UI components with React and styled-components, increasing efficiency and consistency.
- Created responsive user interfaces with HTML, CSS, and TypeScript, ensuring compatibility across devices.
- Integrated front-end components with RESTful APIs and server-side technologies (Node.js/Express), enabling seamless data flow.
- Conducted accessibility audits and implemented WCAG-compliant fixes for a PwC project.
- Produced detailed technical documentation of application changes, with clarity and thoroughness.

**JavaScript & React Web Development Teaching Assistant** Remote, Argentina  
Feb 2022 – Apr 2022  
**Bootcamp Henry** (Tech Education Academy)

- Guided students through JavaScript fundamentals, React hooks, state management, and core front-end concepts.
- Led hands-on coding sessions using Git and GitHub, teaching version control best practices and agile methodologies.
- Coached students in building single-page applications using React and Node.js, emphasizing responsive design and API integration.

**Pet Projects**

**Full Stack Developer** Mar 2022 – Apr 2022  
**E-Commerce Platform**

- Built a full-stack, responsive e-commerce site using React, Redux, Node/Express, and PostgreSQL.
- Developed admin CRUD features, user account management, and secure checkout with real-time inventory.

**Videogames Cave** Feb 2022  
- Designed and coded a SPA leveraging RAWG.io API, PostgreSQL/Sequelize to search and filter, including form validation.

**Front-End Developer** Jan 2022  
**Movie Finder App**

- Created an app with React, Redux, and Bootstrap, with detailed movie views and a favourites list with add/remove functionality.

**Weather App** Dec 2021  
- Developed a multi-location weather tracker using React, including humidity, temperature, and hourly forecasts.

**Skills**

**Programming Languages:** JavaScript, TypeScript

**Front-End:** HTML5, CSS3, React, Angular, Redux, Redux Toolkit, NextJS, React Native, Tailwind, Expo, Bootstrap

**Back-End:** Node.js, Express.js, Sequelize, Prisma, Drizzle, Mongoose

**Database and Version Control:** PostgreSQL, MongoDB, Git/Github

**Tools:** Microsoft Power Platform, Visual Studio Code, NPM, Vite, Chrome Dev Tools, PgAdmin, Studio 3T, Postman, Azure DevOps, Trello, Google Analytics, Veracode.

**Languages:** Spanish: Native, English: Advanced

**Education**

**Full Stack Web Development Program** - “Soy Henry” Technical Academy, Oct 2021 – Apr 2022
